Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsell Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from sciatica which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

A WHITE ELEPHANT

Is What Uncle Sam Has
Acquired in the
Philippines.

BRIGADIER GENERAL HALE

Expresses His Views on Our Eastern Possessions in a Letter to a Colorado Friend—Admiral Dewey Coming Home. War Investigators at Camp Cuba Libre Taking Testimony.

Denver, Oct. 19.—Governor Adams has received a letter from Brigadier General Hale, now at Manila, in which he expresses the following opinion concerning the Philippines:

"As to keeping the Philippines, it is my opinion that Uncle Sam acquired something of a white elephant, but having corralled the animal he is in duty-bound to keep him. Guarding the islands against meddling European nations, to whom they would be more valuable than to us, and governing the people will be more trouble than the country is worth, but it would be barbarous and a breach of faith with the insurgents (natives though they are) to give it back to Spain. It is impracticable to give the natives free rein to a government of their own, and absurd to divide the islands between European nations, which have no claim to them whatever. The only other course is to keep them, at least, until order is fully established, laws reformed and the natives, many of whom are highly intelligent, are sufficiently educated in the ways of civilization to exercise, at least, a semi-self-government under the protection of the United States, paying us a sufficient revenue to compensate us for our trouble in acquiring, faginating, civilizing and governing the country up to that time and superintending the job thereafter."

MONEY BADLY NEEDED.

For City Improvements at Santiago de Cuba.

Santiago de Cuba, Oct. 19.—The special committee preparing a report on the subject of internal revenue is about ready to hand in its conclusions. The money expected from taxes and licenses is badly needed for city improvements. Consul Barker has turned over his duties as captain of the port and will proceed to Cienfuegos, there to finish the business connected with his former consulate which was interrupted by the breaking out of the war. He will remain there probably as captain of the port after the evacuation.

A committee, representing the commercial interests of Manzanillo, has arrived here to protest against some of Colonel Ray's appointments there. The transport Romanian has reached Manzanillo with the Fourth Immune regiment. Colonel Ray will return to Guantanamo, leaving Major Pettit in command.

Fifty-seven guns, mostly of an obsolete type, will go north by the transport Chester. Two handsome rapid-fire guns, formerly belonging to the Spanish torpedoed destroyer Terror, have been received.

FARING'S REPORT.

It Will Detail Filthy Condition of the City of Havana.

Havana, Oct. 19.—Colonel Faring of the United States sanitary commission will forward to Washington today an extensive report dwelling particularly upon the filthy condition of this city, which is the real cause of all the infectious diseases. Some days have elapsed since even the principal street has been swept, and the rubbish and filth are accumulating rapidly. The municipal

When a man gets down flat on his back, so that he has to be carried about like a baby, he finally realizes that he is a sick man for years, but has recklessly refused to recognize nature's warnings. Severe illness is something that does not strike a man like a flash of lightning. It creeps upon him by degrees and at every step warns him with a new danger signal.

"When a man feels 'out of sorts' or 'knocked out,' or whatever he may call it, he is a sick man. It is time to take warning. Headaches, drowsiness, loss of sleep at night, loss of appetite, nervousness, bad taste in the mouth in the morning, and frightful dreams—all these are warnings of disease. Dr. Pierce's Golden Medical Discovery creates appetite, cures dyspepsia, stimulates the liver, purifies the blood, quickens the circulation and tones the nerves. It makes rich, red, tissue-building blood. It builds firm flesh, but does not make corpulent people more corpulent. Unlike cod liver oil, it does not make flabby flesh. On the contrary, it tears down and excretes the unhealthy tissues that constitute corpulence, and replaces them with the firm, muscular tissues of good health. It cures 98 per cent. of all cases of consumption. All bronchial, throat and kindred ailments, as lingering coughs, spitting of blood and weak lungs are cured by it. Thousands have testified to its merits. At all medicine stores.

officers take no steps to remedy the evil. The trouble seems to be that the work of sweeping the streets is let out by contract and the contractor claims the city now owes him \$40,000, without which he cannot buy carts or mules or pay wages to continue the service.

The Spanish military commissioners have notified the American military commissioners that the steamer Colon will take on board this week at Nuevitas, province of Puerto Principe, the sick soldiers now in that part of the country. The Spanish troops of the Cojimar garrison are being concentrated at Guanabacoa, preparatory to being embarked for Spain.

VOLUNTEERS

Being Returned to the United States From Porto Rico.

Washington, Oct. 19.—Adjutant General Corbin last night received from Major General Brooke a dispatch announcing the order the volunteer troops would leave Porto Rico for the United States. The dispatch follows:

"The regiments move as follows: Sixth Massachusetts from San Juan Oct. 19 on Mississippi for Boston, Third Wisconsin will go next on Manitoba. Lancaster's battalion of artillery next. The next regiment to go will be the Third Illinois, the next Fourth Ohio, and when the cavalry arrives the First Kentucky volunteers and the First volunteer engineer regiment."

Banquet to Peace Commissioners. Paris, Oct. 19.—General Horace Potter, the United States ambassador, gave a banquet last evening at the American embassy to the United States and Spanish peace commissioners. The banquet room was elaborately hung with tapestries and armor; flowers were in profusion and the effects through the stained glass were very beautiful.

SAMPSON

Delivers an Ultimatum to Spain's Evacuation Commissioners.

Havana, Oct. 19.—A conference lasting three hours was held between General Wade, General Butler and Admiral Sampson as to the contents of the five official notes delivered to the American

commissioner by the Spanish evacuation commission.

The Spaniards claim that it would be practically impossible to effect evacuation in the short period of time fixed by the Americans. They disclaim all authority to treat of any political subjects outside the strict limits of military evacuation. They insist that the sovereignty of Spain will continue until the final treaty of peace is signed in Paris. In reply Admiral Sampson personally dictated a brief note stating emphatically that Dec. 1 would positively be the date on which Spain's rights, claims and sovereignty in the island of Cuba would cease to exist. The American note was delivered to General Parrodo of the Spanish evacuation commission by Captain Hart.

DOUBT REMOVED.

Spain Now Knows the Position of the United States Toward Cuba.

Paris, Oct. 19.—Spain can no longer have any doubt regarding the ultimate attitude of the United States toward the so-called Cuban debt. The American commissioners have declined to assume it or any part of it, by express treaty or by contract.

They also declined to accept a cession of sovereignty to the United States, for in that case Spain would claim that such a cession by its own force would impose the obligation for that debt.

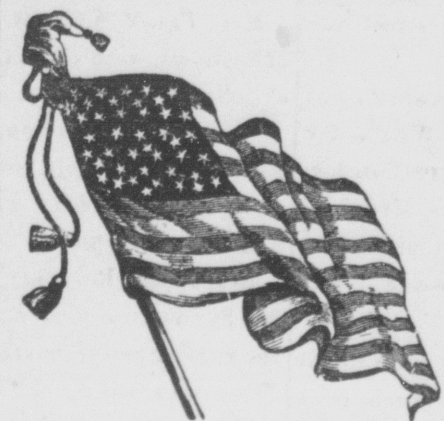

It is confidently believed that in refusing to accept a cession of sovereignty, the American commissioners are acting also upon their announcement to the world in the intervention resolutions disclaiming any intention to exercise sovereignty or authority over Cuba, except for pacification and then to leave the island to the control of its people and its people to the assumption of its obligations.

This position of the commissioners couples itself with the declaration in the resolution that the people of Cuba are by right and ought to be free and independent and good faith requires the performance of this declaration, it being plain that if Cuba were annexed to the United States, while she might be free, she would not be independent.

THE INVESTIGATION.

Commission Taking Testimony at Camp Cuba Libre.

Jacksonville, Fla., Oct. 19.—The war investigating commission held two sessions yesterday. The general staff officers of the Seventh army corps and officers and men of the Second South Carolina were examined. Colonel Oliver E. Wood, chief commissary at Camp Cuba Libre, said that during his occupancy of the office, since May last, he had been amply able to meet all

requests upon him for supplies. Captain Chauncey V. Baker, chief quartermaster, said that at first he was unable to meet all demands for supplies. Colonel Guild said at the beginning there was a lack of supplies for hospitals, but the deficiency was supplied by the Red Cross.

COMING HOME.

Admiral Dewey Expected to Arrive in San Francisco Dec. 6.

San Francisco, Oct. 19.—Admiral Dewey will arrive in this city on Dec. 6. He will come here on the steamer City of Peking, which is due to arrive here on that date from the Orient. Admiral Dewey is interested in several mining enterprises on this coast and it is these interests that prompt his coming at this time. He has written friends in this city that he has already applied for leave of absence.

Retired Farmer and Wife Murdered by Burglars.

St. Anne, Ill., Oct. 19.—Emil Chiniquy, a wealthy retired farmer, 45 years old, and his wife were found murdered yesterday at their home in this place. Their heads were crushed by some heavy instrument. Burglars had entered by a rear window. A 20-year-old son slept upstairs. He heard no noise. Chiniquy is believed to have had a large sum of money in the house. The corner and detectives are investigating.

THE PEACE JUBILEE

Formal Opening of Chicago's Celebration of Close of the War.

MAJOR M'KINLEY PRESENT

Welcomed to the Windy City by Mayor Harrison—Exercises at the Auditorium. Grand Ball For the Benefit of Soldiers and Sailors Attended by Thousands. Generals Miles and Shafter Present.

Chicago, Oct. 19.—Five thousand people packed within the walls of the Auditorium witnessed the formal launching of the peace jubilee yesterday. It required the unhooking of six vials of eloquence to make the launching a distinct success and no vessel that ever slid down the ways was dumped into more dampness than the peace jubilee. A heavy drizzle, that at times changed into rain, and then back into drizzle was falling, the streets were filled with puddles of water and a cold wind blowing off Lake Michigan made walking unpleasant. Notwithstanding all these obstacles the opening of the jubilee proper was a distinct and brilliant success.

For an hour before the ceremonies commenced the street in front of the Auditorium was packed with an eager crowd. Owing to a misunderstanding, in which the president had no part, he was nearly an hour late in entering the hall.

On his ride from the residence of Mr. McWilliams the president was escorted by the Chicago hussars and mounted police. As the president entered the hall his appearance was the signal for an outburst of enthusiastic cheers that

lasted for several minutes. With the president were ex-Governor Richard J. Oglesby of Illinois, Lafayette McWilliams, whose guest the president has been since his arrival in the city, President Harper of the Chicago University and Thomas B. Bryan of Chicago. The ladies of the party, comprising Mrs. McWilliams, Miss McWilliams and Miss Duncan, were in the box adjoining that of the president. Almost immediately after the presidential party had taken their seats Rev. Frank W. Gunsaulus, chaplain of the meeting, offered prayer.

Chairman Charles Frank made a short address, introducing George R. Peck as the presiding officer, who in turn introduced Mayor Harrison, who extended a welcome to the president on behalf of the city of Chicago. The other principal speakers were Archbishop Ireland, Judge Emory Speer, General Miles, General Duffield and Brooke T. Washington, the colored orator. At the conclusion of Judge Speer's speech, President McKinley started to leave the hall, but the loud calls for a speech from the chief magistrate caused him to return to the stage, where he delivered a short patriotic and impressive speech, and thanked the city for its kindly treatment of himself and party. When he concluded there was thunderous applause and waving of handkerchiefs and hats.

At the conclusion of the exercises at the Auditorium the president was entertained at luncheon at the Auditorium hotel by the peace jubilee committee. At the table with the president were Thomas E. Bryan, Richard J. Oglesby, Judge John Barton Payne, Captain Lafayette McWilliams and several ladies of the presidential party. The affair was entirely informal, no speeches being made or toasts proposed.

At its close the president left for the residence of Captain McWilliams, where he rested until the departure for the jubilee ball at the Auditorium. In spite of the drizzling rain, a considerable crowd gathered outside the hotel to watch the president drive away and cheers were given as he was escorted to his carriage.

JUBILEE BALL.

Over Four Thousand People Danced For Benefit of Soldiers and Sailors.

Chicago, Oct. 19.—Four thousand people danced at the Auditorium last night for the benefit of the suffering soldiers and sailors who fought in the war with Spain. Both in a financial sense and in a social way the ball was a success.

It was in fact equal in all respects to the great ball given on the same floor six years ago at the time of the dedication of the world's fair buildings. The attendance was even greater last night than at the great ball of six years ago. The object of the dance of last night was charity and the people of Chicago and the surrounding states who had come to the city to witness the jubilee ceremonies gave with a lavish hand. The throng was so great in fact that for a time it was not possible to dance upon

the floor and the people were compelled to content themselves with the lesser delight of the promenade and concert music.

The hour set for the reception of the president and distinguished guests was 10:30. The reception committee took up its station behind long ribbons of red, white and blue that had been stretched across the hall. Here they waited for the chief guest of the evening, and punctually to the minute the president appeared, Chairman Trux of the jubilee reception committee being on his right and Mayor Harrison upon his left. The orchestra rendered "The Star Spangled Banner." The short ceremony of presentation being over, the president made his way to the box reserved for his use, the throng applauding enthusiastically.

Shortly before the arrival of President McKinley there was a massing of dark uniforms and a glitter of gold lace at the entrance of the hall and then a long column of fighting men headed by the tall form of General Miles moved across the floor in the direction of the reception committee. General Miles received a most enthusiastic welcome as he entered upon the floor, and Generals Chaffee and Shafter, who were close behind him, were also the recipients of great applause.

RELIGIOUS

Liberal Congress of Religions in Session at Omaha.

Omaha, Oct. 19.—The Liberal Congress of Religions opened yesterday evening at the First Congregational church with a very large attendance. The addresses of welcome were made by Thomas Kilpatrick of Omaha and Hon. W. G. Whitmore of Valley, Neb. Dr. N. W. Thomas of Chicago, president of the congress, briefly responded to the addresses and introduced Rabbi E. G. Hirsch of Chicago, who delivered the opening sermon. Rabbi Hirsch reviewed the various phases of the evolution of the liberal idea of religion. He traced the toleration of the 18th century through the criticism of the 19th up to the humanitarianism of the 20th. The liberalism of today is not eclectic, but embraces men because they are Jews and because they are gentiles. It is the idea of fatherhood of God and the brotherhood of man.

It is understood that the men were shot by the proprietor or employees of the saloon, which is owned by P. F. Eagan. After the shooting soldiers set fire to the saloon.

The town was in a turmoil all night, the civil authorities being powerless to preserve order.

A WHITE ELEPHANT

BRIGADIER GENERAL HALE

Expresses His Views on Our Eastern Possessions in a Letter to a Colorado Friend—Admiral Dewey Coming Home. War Investigators at Camp Cuba Libre Taking Testimony.

Denver, Oct. 19.—Governor Adams has received a letter from Brigadier General Hale, now at Manila, in which he expresses the following opinion concerning the Philippines:

"As to keeping the Philippines, it is my opinion that Uncle Sam acquired something of a white elephant, but having corralled the animal he is in duty-bound to keep him. Guarding the islands against meddling European nations, to whom they would be more valuable than to us, and governing the people will be more trouble than the country is worth, but it would be barbarous and a breach of faith with the insurgents (nations though they are) to give it back to Spain. It is impracticable to give the natives free rein to a government of their own, and absurd to divide the islands between European nations, which have no claim to them whatever. The only other course is to keep them, at least, until order is fully established, laws reformed and the natives, many of whom are highly intelligent, are sufficiently educated in the ways of civilization to exercise, at least, a semi-self-government under the protection of the United States, paying us a sufficient revenue to compensate us for our trouble in acquiring, fusing, civilizing and governing the country up to that time and superintending the job thereafter."

MONEY BADLY NEEDED.
For City Improvements at Santiago de Cuba.

Santiago de Cuba, Oct. 19.—The special committee preparing a report on the subject of internal revenue is about ready to hand in its conclusions. The money expected from taxes and licenses is badly needed for city improvements. Consul Barker has turned over his duties as captain of the port and will proceed to Cienfuegos, there to finish the business connected with his former consulate which was interrupted by the breaking out of the war. He will remain there probably as captain of the port after the evacuation.

A committee, representing the commercial interests of Manzanillo, has arrived here to protest against some of Colonel Ray's appointments there. The transport Roumanian has reached Manzanillo with the Fourth marine regiment. Colonel Ray will return to Guantanamo, leaving Major Pettit in command.

Fifty-seven guns, mostly of an obsolete type, will go north by the transport Chester. Two handsome rapid-fire guns, formerly belonging to the Spanish torpedoed destroyer Terror, have been received.

FARING'S REPORT.
It Will Detail Filthy Condition of the City of Havana.

Havana, Oct. 19.—Colonel Faring of the United States sanitary commission will forward to Washington today an extensive report dealing particularly upon the filthy condition of this city, which is the real cause of all the infectious diseases. Some days have elapsed since even the principal street has been swept, and the rubbish and filth are accumulating rapidly. The municipal

DOUBT REMOVED.
Spain Now Knows the Position of the United States Toward Cuba.

Paris, Oct. 19.—Spain can no longer have any doubt regarding the ultimate attitude of the United States toward the so-called Cuban debt. The American commissioners have declined to assume it or any part of it, by express treaty or by contract.

They also declined to accept a cession of sovereignty to the United States, for in that case Spain would claim that such a cession by its own force would impose the obligation for that debt.

It is confidently believed that in refusing to accept a cession of sovereignty, the American commissioners are acting also upon their announcement to the world in the intervention resolutions disclaiming any intention to exercise sovereignty or authority over Cuba, except for pacification and then to leave the island to the control of its people and its people to the assumption of its obligations.

This position of the commissioners couples itself with the declaration in the resolution that the people of Cuba are by right and ought to be free and independent and good faith requires the performance of this declaration, it being plain that if Cuba were annexed to the United States, while she might be free, she would not be independent.

THE INVESTIGATION.
Commission Taking Testimony at Camp Cuba Libre.

Jacksonville, Fla., Oct. 19.—The war investigating commission held two sessions yesterday. The general staff officers and men of the Second South Carolina were examined. Colonel Oliver E. Wood, chief commissary at Camp Cuba Libre, said that during his occupancy of the office, since May last, he had been amply able to meet all

officers take no steps to remedy the evil. The trouble seems to be that the work of sweeping the streets is let out by contract and the contractor claims the city now owes him \$40,000, without which he cannot buy carts or mules or pay wages to continue the service.

The Spanish military commissioners have notified the American military commissioners that the steamer Colon will take on board this week at Nativitas, province of Puerto Principe, the sick soldiers now in that part of the country. The Spanish troops of the Cofimar garrison are being concentrated at Guanabacoa, preparatory to being embarked for Spain.

VOLUNTEERS

Being Returned to the United States From Porto Rico.

Washington, Oct. 19.—Adjutant General Corbin last night received from Major General Brooke a dispatch announcing the order the volunteer troops would leave Porto Rico for the United States. The dispatch follows:

"The regiments move as follows: Sixth Massachusetts from San Juan Oct. 19 on Mississippi for Boston, Third Wisconsin will go next on Manitoba. Lancaster's battalion of artillery next. The next regiment to go will be the Third Illinois, the next Fourth Ohio, and when the cavalry arrives the First Kentucky volunteers and the First volunteer engineer regiment."

Banquet to Peace Commissioners.
Paris, Oct. 19.—General Horace Porter, the United States ambassador, gave a banquet last evening at the American embassy to the United States and Spanish peace commissioners. The banqueting room was elaborately hung with tapestries and armor; flowers were in profusion and the effects through the stained glass were very beautiful.

SAMPSON

Delivers an Ultimatum to Spain's Evacuation Commissioners.

Havana, Oct. 19.—A conference lasting three hours was held between General Wade, General Butler and Admiral Sampson as to the contents of the five official notes delivered to the American

commissioner by the Spanish evacuation commission.

The Spaniards claim that it would be practically impossible to effect evacuation in the short period of time fixed by the Americans. They disclaim all authority to treat of any political subjects outside the strict limits of military evacuation. They insist that the sovereignty of Spain will continue until the final treaty of peace is signed in Paris. In reply Admiral Sampson personally dictated a brief note stating emphatically that Dec. 1 would positively be the date on which Spain's rights, claims and sovereignty in the island of Cuba would cease to exist. The American note was delivered to General Parrodo of the Spanish evacuation commission by Captain Hart.

THE PEACE JUBILEE

Formal Opening of Chicago's Celebration of Close of the War.

MAJOR M'KINLEY PRESENT

Welcomed to the Windy City by Mayor Harrison—Exercises at the Auditorium. Grand Ball For the Benefit of Soldiers and Sailors Attended by Thousands. Generals Miles and Shafter Present.

Chicago, Oct. 19.—Five thousand people packed within the walls of the Auditorium witnessed the formal launching of the peace jubilee yesterday. It required the uncorking of six vials of eloquence to make the launching a distinct success and no vessel that ever slid down the ways was dumped into more dampness than the peace jubilee. A heavy drizzle, that at times changed into rain, and then back into drizzle was falling, the streets were filled with puddles of water and a cold wind blowing off Lake Michigan made walking unpleasant. Notwithstanding all these obstacles the opening of the jubilee proper was a distinct and brilliant success.

For an hour before the ceremonies commenced the street in front of the Auditorium was packed with an eager crowd. Owing to a misunderstanding, in which the president had no part, he was nearly an hour late in entering the hall.

On his ride from the residence of Mr. McWilliams the president was escorted by the Chicago hussars and mounted police. As the president entered the hall his appearance was the signal for an outburst of enthusiastic cheers that

JUBILEE BALL.
Over Four Thousand People Danced For Benefit of Soldiers and Sailors.

Chicago, Oct. 19.—Four thousand people danced at the Auditorium last night for the benefit of the suffering soldiers and sailors who fought in the war with Spain. Both in a financial sense and in a social way the ball was a success.

It was in fact equal in all respects to the great ball given on the same floor six years ago at the time of the dedication of the world's fair buildings. The attendance was even greater last night than at the great ball of six years ago. The object of the dance of last night was charity and the people of Chicago and the surrounding states who had come to the city to witness the jubilee ceremonies gave with a lavish hand. The throng was so great in fact that for a time it was not possible to dance upon

the floor and the people were compelled to content themselves with the lesser delight of the promenade and concert music.

The hour set for the reception of the president and distinguished guests was 10:30. The reception committee took up its station behind long ribbons of red, white and blue that had been stretched across the hall. Here they waited for the chief guest of the evening, and punctually to the minute the president appeared, Chairman Trux of the jubilee reception committee being on his right and Mayor Harrison upon his left. The orchestra rendered "The Star Spangled Banner." The short ceremony of presentation being over, the president made his way to the box reserved for his use, the throng applauding enthusiastically.

Shortly before the arrival of President McKinley there was a massing of dark uniforms and a glitter of gold lace at the entrance of the hall and then a long column of fighting men headed by the tall form of General Miles moved across the floor in the direction of the reception committee. General Miles received a most enthusiastic welcome as he entered upon the floor, and Generals Chaffee and Shafter, who were close behind him, were also the recipients of great applause.

RELIGIOUS

Liberal Congress of Religions in Session at Omaha.

Omaha, Oct. 19.—The Liberal Congress of Religions opened yesterday evening at the First Congregational church with a very large attendance. The addresses of welcome were made by Thomas Kilpatrick of Omaha and Hon. W. G. Whitmore of Valley, Neb. Dr. N. W. Thomas of Chicago, president of the congress, briefly responded to the addresses and introduced Rabbi E. G. Hirsch of Chicago, who delivered the opening sermon. Rabbi Hirsch reviewed the various phases of the evolution of the liberal idea of religion. He traced the toleration of the 18th century through the criticism of the 19th up to the humanitarianism of the 20th. The liberalism of today is not inelastic, but embraces many because they are good, and because they are gentle. It is the idea of fatherhood of God and the brotherhood of man.

THERE are about twenty men in each township, whom Commissioner Burrell is asking to stand around all winter and spring and wait till he gives them a job of superintending the same gravel road. In the meantime he will expect each and all of them to hustle for his election. We wonder how many of them will be dupes enough to swallow his bait and be hooked in the gills in the spring. It would be well for the taxpayers to make a note of this little scheme.

The ring organ consumed a good amount of its space in the last issue in an attempt to excuse the lawbreaking commissioners for their failure to issue bonds and complete the gravel roads this year according to contract. The silly claim is made that a large amount of interest is saved, when in truth the law specifies that the bonds must run for one, two, three, four, five, six, seven, eight, nine and ten years from the date of their issue. It follows then, that if they had been issued this fall, they would all have matured at the expiration of ten years from the 15th day of next month, but by holding them back until after that date they can not all mature until eleven years thereafter and in the end it will be necessary to pay nearly one year's interest more than was really necessary. Instead of saving money the result will be an increased outlay, and the poor taxpayer will foot the bill. The people are a little too well acquainted with this gravel road law to be deceived, and they know full well the schemes of Burrell and his "shadow," Gibson and will end the day of such politicians.

There was quite an excitement at the White Creek bridge last Wednesday. While Nelson Harris was crossing the bridge with three horses and a yard and a half of gravel the north side of the bridge gave way and precipitated all into the water. Luckily there was not much damage done, but Mr. Harris says he wants no more of that kind of experience and that if he is to be immersed he wants some one to say the ceremony.

If the "Hummer" thinks such balderdash as he put out in the Banner last week will in any way reflect on the character of Mr. White, our trustee, he is mistaken. The citizens of this township know that Mr. White is an honest man, and moreover the people of Honeytown never held a school meeting where a majority of patrons was present as prescribed by law, neither did their petition have the required two-thirds majority. Let it be understood that the Honeytown school is taught by an accomplished lady and that we have an honest man for trustee.

Blood Ran Like Water.
The Jews of old believed the blood was the life of the body and they were right. When the blood is poor, thin, watery, disease stalks a claim on the body. You know it because it becomes pale, thin, weak, nervous, run down. You can't eat, can't work, can't sleep, feel very "blue," have headaches or fainting and dizzy spells. Such blood is easily poisoned and it tells in pimples, blotches, sores, etc. The supreme remedy for all such troubles is Electric Bitters which make pure, rich life giving blood. It acts directly on stomach, liver, kidneys and bowels and builds up the whole system. Only 50 cents at Wm. F. Peter's Drug Store.

Three Doctors in Consultation.

From Benjamin Franklin
"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best; to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. There are about twenty men in each township, whom Commissioner Burrell is asking to stand around all winter and spring and wait till he gives them a job of superintending the same gravel road. In the meantime he will expect each and all of them to hustle for his election. We wonder how many of them will be dupes enough to swallow his bait and be hooked in the gill in the spring. It would be well for the taxpayers to make a note of this little scheme.

The ring organ consumed a good amount of its space in the last issue in an attempt to excuse the lawbreaking commissioners for their failure to issue bonds and complete the gravel roads this year according to contract. The silly claim is made that a large amount of interest is saved, when in truth the law specifies that the bonds must run for one, two, three, four, five, six, seven, eight, nine and ten years from the 15th day of November after the date of their issue. It follows then that if they had been issued this fall, they would all have matured at the expiration of ten years from the 15th day of next month, but by holding them back until after that date they can not all mature until eleven years thereafter and in the end it will be necessary to pay nearly one year's interest more than was really necessary. Instead of saving money the result will be an increased outlay, and the poor taxpayer will foot the bill. The people are a little too well acquainted with this gravel road law to be deceived, and they know full well the schemes of Burrell and his "shadow," Gibson and will end the day of such politicians.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down she will be nerous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine to regulate stomach, liver and kidneys and to purify the blood. It gives strong, bright, healthy, smooth, velvety skin, rich complexion. It will make a good looking, charming woman of a run down invalid. Only 50 cents at Wm. F. Peter's Drug Store.

Three Doctors in Consolation.

From Benjamin Franklin "When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best; to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by C. W. Milhouse.

Blue Jackets.

"Blue Jackets," a naval war play, will be produced on a very elaborate and imposing scale at the Opera House Oct. 24. The scenery and mechanical effects used in this beautiful play are said to be the acme of stage realism and the management call attention to the fact that the pictures of the scenes are not in the least exaggerated, but are made from photographs taken by flash light from the actual representations. The cast is said to be exceptionally strong. The piece is a triumph for both company and management and will no doubt meet with due recognition from theatre goers.

Dr. Bull's Cough Syrup has been in use for half a century. Some families have used it for three generations, and it is today the standard cough remedy of this country.

Miraculous Benefit
RECEIVED FROM
Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from eczema which affected my heart in the worst form, my limbs swelling from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as by a miracle."

A WHITE ELEPHANT

Is What Uncle Sam Has Acquired in the Philippines.

BRIGADIER GENERAL HALE

Expresses His Views on Our Eastern Possessions in a Letter to a Colorado Friend—Admiral Dewey Coming Home. War Investigators at Camp Cuba Libre Taking Testimony.

Denver, Oct. 19.—Governor Adams has received a letter from Brigadier General Hale, now at Manila, in which he expresses the following opinion concerning the Philippines:
"As to keeping the Philippines, it is my opinion that Uncle Sam acquired something of a white elephant, but having corralled the animal he is in duty-bound to keep him. Guarding the islands against meddling European nations, to whom they would be more valuable than to us, and governing the people will be more trouble than the country is worth, but it would be barbarous and a breach of faith with the insurgents (natives though they are) to give it back to Spain. It is impracticable to give the natives free rein to a government of their own, and absurd to divide the islands between European nations, which have no claim to them whatever. The only other course is to keep them, at least, until order is fully established, laws reformed and the natives, many of whom are highly intelligent, are sufficiently educated in the ways of civilization to exercise, at least, a semi-self-government under the protection of the United States, paying us a sufficient revenue to compensate us for our trouble in acquiring, faginating, civilizing and governing the country up to that time and superintending the job thereafter."

MONEY BADLY NEEDED.

For City Improvements at Santiago de Cuba.
Santiago de Cuba, Oct. 19.—The special committee preparing a report on the subject of internal revenue is about ready to hand in its conclusions. The money expected from taxes and licenses is badly needed for city improvements. Consul Barker has turned over his duties as captain of the port and will proceed to Cienfuegos, there to finish the business connected with his former consulate which was interrupted by the breaking out of the war. He will remain there probably as captain of the port after the evacuation.

A committee, representing the commercial interests of Manzanillo, has arrived here to protest against some of Colonel Ray's appointments there. The transport Romanian has reached Manzanillo with the Fourth Immune regiment. Colonel Ray will return to Guantanamo, leaving Major Pettit in command.
Fifty-seven guns, mostly of an obsolete type, will go north by the transport Chester. Two handsome rapid-fire guns, formerly belonging to the Spanish torpedo boat destroyer Terror, have been received.

FARING'S REPORT.

It Will Detail Filthy Condition of the City of Havana.
Havana, Oct. 19.—Colonel Faring of the United States sanitary commission will forward to Washington today an extensive report dwelling particularly upon the filthy condition of this city, which is the real cause of all the infectious diseases. Some days have elapsed since even the principal street has been swept, and the rubbish and filth are accumulating rapidly. The municipal

commissioner for the Spanish evacuation commission.

The Spaniards claim that it would be practically impossible to effect evacuation in the short period of time fixed by the Americans. They disclaim all authority to treat of any political subjects outside the strict limits of military evacuation. They insist that the sovereignty of Spain will continue until the final treaty of peace is signed in Paris. In reply Admiral Sampson personally dictated a brief note stating emphatically that Dec. 1 would positively be the date on which Spain's rights, claims and sovereignty in the island of Cuba would cease to exist. The American note was delivered to General Parrodo of the Spanish evacuation commission by Captain Hart.

DOUBT REMOVED.

Spain Now Knows the Position of the United States Toward Cuba.

Paris, Oct. 19.—Spain can no longer have any doubt regarding the ultimate attitude of the United States toward the so-called Cuban debt. The American commissioners have declined to assume it or any part of it, by express treaty or by contract.

They also declined to accept a cession of sovereignty to the United States, for in that case Spain would claim that such accession by its own force would impose the obligation for that debt.

It is confidently believed that in refusing to accept a cession of sovereignty, the American commissioners are acting also upon their announcement to the world in the intervention resolutions disclaiming any intention to exercise sovereignty or authority over Cuba, except for pacification and then to leave the island to the control of its people and its people to the assumption of its obligations.

This position of the commissioners couples itself with the declaration in the resolution that the people of Cuba are by right and ought to be free and independent and good faith requires the performance of this declaration, it being plain that if Cuba were annexed to the United States, while she might be free, she would not be independent.

THE INVESTIGATION.

Commission Taking Testimony at Camp Cuba Libre.

Jacksonville, Fla., Oct. 19.—The war investigating commission held two sessions yesterday. The general staff officers of the Seventh army corps and officers and men of the Second South Carolina were examined. Colonel Oliver E. Wood, chief commissary at Camp Cuba Libre, said that during his company of the office, since May last, he had been amply able to meet all

officers take no steps to remedy the evil. The trouble seems to be that the work of sweeping the streets is let out by contract and the contractor claims the city now owes him \$40,000, without which he cannot buy carts or mules or pay wages to continue the service.
The Spanish military commissioners have notified the American military commissioners that the steamer Colon will take on board this week at Nuevitas, province of Puerto Principe, the soldiers now in that part of the country. The Spanish troops of the Cojimar garrison are being concentrated at Guanabacoa, preparatory to being embarked for Spain.

VOLUNTEERS

Being Returned to the United States From Porto Rico.

Washington, Oct. 19.—Adjutant General Corbin last night received from Major General Brooke a dispatch announcing the order the volunteer troops would leave Porto Rico for the United States. The dispatch follows:
"The regiments move as follows: Sixth Massachusetts from San Juan Oct. 19 on Mississippi for Boston, Third Wisconsin will go next on Manitoba. Lancaster's battalion of artillery next. The next regiment to go will be the Third Illinois, the next Fourth Ohio, and when the cavalry arrives the First Kentucky volunteers and the First volunteer engineer regiment."

Banquet to Peace Commissioners.
Paris, Oct. 19.—General Horace Porter, the United States ambassador, gave a banquet last evening at the American embassy to the United States and Spanish peace commissioners. The banquet room was elaborately hung with tapestries and armor; flowers were in profusion and the effects through the stained glass were very beautiful.

SAMPSON

Delivers an Ultimatum to Spain's Evacuation Commissioners.

Havana, Oct. 19.—A conference lasting three hours was held between General Wade, General Butler and Admiral Sampson as to the contents of the five official notes delivered to the American

commissioner for the Spanish evacuation commission.

The Spaniards claim that it would be practically impossible to effect evacuation in the short period of time fixed by the Americans. They disclaim all authority to treat of any political subjects outside the strict limits of military evacuation. They insist that the sovereignty of Spain will continue until the final treaty of peace is signed in Paris. Admiral Dewey Expected to Arrive in San Francisco Dec. 6.

San Francisco, Oct. 19.—Admiral Dewey will arrive in this city on Dec. 6. He will come here on the steamer City of Pekin, which is due to arrive here on that date from the Orient. Admiral Dewey is interested in several mining enterprises on this coast and it is these interests that prompt his coming at this time. THE PEACE JUBILEE

Formal Opening of Chicago's Celebration of Close of the War.

MAJOR M'KINLEY PRESENT

Welcomed to the Windy City by Mayor Harrison—Exercises at the Auditorium. Grand Ball for the Benefit of Soldiers and Sailors Attended by Thousands. Generals Miles and Shafter Present.

Chicago, Oct. 19.—Five thousand people packed within the walls of the Auditorium witnessed the formal launching of the peace jubilee yesterday. It required the uncorking of six vials of eloquence to make the launching a distinct success and no vessel that ever slid down the ways was dumped into more dampness than the peace jubilee. A heavy drizzle, that at times changed into rain, and then back into drizzle was falling, the streets were filled with puddles of water and a cold wind blowing off Lake Michigan made walking unpleasant. Notwithstanding all these obstacles the opening of the jubilee proper was a distinct and brilliant success.

For an hour before the ceremonies commenced the street in front of the Auditorium was packed with an eager crowd. Owing to a misunderstanding, in which the president had no part, he was nearly an hour late in entering the hall.

On his ride from the residence of Mr. McWilliams the president was escorted by the Chicago hussars and mounted police. As the president entered the hall his appearance was the signal for an outburst of enthusiastic cheers that

lasted for several minutes. With the president were ex-Governor Richard J. Oglesby of Illinois, Lafayette McWilliams, whose guest the president has been since his arrival in the city, President Harper of the Chicago University and Thomas B. Bryan of Chicago. The ladies of the party, comprising Mrs. McWilliams, Miss McWilliams and Miss Duncan, were in the box adjoining that of the president. Almost immediately after the presidential party had taken their seats Rev. Frank W. Gunsaulus, chaplain of the meeting, offered prayer.

Chairman Charles Fraux made a short address, introducing George R. Peck as the presiding officer, who in turn introduced Mayor Harrison, who extended a welcome to the president on behalf of the city of Chicago. The other principal speakers were Archbishop Ireland, Judge Emory Speer, General Miles, General DuRoi and Brooke T. Washington, the colored orator. At the conclusion of Judge Speer's speech, President McKinley started to leave the hall, but the loud calls for a speech from the chief magistrate caused him to return to the stage, where he delivered a short patriotic and impressive speech, and thanked the city for its kindly treatment of himself and party. When he concluded there was thunderous applause and waving of handkerchiefs and hats.

At the conclusion of the exercises at the Auditorium the president was entertained at luncheon at the Auditorium hotel by the peace jubilee committee. At the table with the president were Thomas B. Bryan, Richard J. Oglesby, Judge John Barton Payne, Captain Lafayette McWilliams and several ladies of the presidential party. The affair was entirely informal, no speeches being made or toasts proposed.

At its close the president left for the residence of Captain McWilliams, where he rested until the departure for the jubilee ball at the Auditorium. In spite of the drizzling rain, a considerable crowd gathered outside the hotel to watch the president drive away and cheers were given as he was escorted to his carriage.

JUBILEE BALL.

Over Four Thousand People Danced For Benefit of Soldiers and Sailors.

Chicago, Oct. 19.—Four thousand people danced at the Auditorium last night for the benefit of the suffering soldiers and sailors who fought in the war with Spain. Both in a financial sense and in a social way the ball was a success.

It was in fact equal in all respects to the great ball given on the same floor six years ago at the time of the dedication of the world's fair buildings. The attendance was even greater last night than at the great ball of six years ago. The object of the dance of last night was charity and the people of Chicago and the surrounding states who had come to the city to witness the jubilee ceremonies gave with a lavish hand. The throng was so great in fact that for a time it was not possible to dance upon

the floor and the people were compelled to content themselves with the lesser delight of the promenade and concert music.

The hour set for the reception of the president and distinguished guests was 10:30. The reception committee took up its station behind long ribbons of red, white and blue that had been stretched across the hall. Here they waited for the chief guest of the evening, and punctually to the minute the president appeared, Chairman Truax of the jubilee reception committee being on his right and Mayor Harrison upon his left. The orchestra rendered "The Star Spangled Banner." The short ceremony of presentation being over, the president made his way to the box reserved for his use, the throng applauding enthusiastically.

Shortly before the arrival of President McKinley there was a massing of dark uniforms and a glitter of gold lace at the entrance of the hall and then a long column of fighting men headed by the tall form of General Miles moved across the floor in the direction of the reception committee. General Miles received a most enthusiastic welcome as he entered upon the floor, and Generals Chaffee and Shafter, who were close behind him, were also the recipients of great applause.

RELIGIOUS

Liberal Congress of Religions in Session at Omaha.

Omaha, Oct. 19.—The Liberal Congress of Religions opened yesterday evening at the First Congregational church with a very large attendance. The addresses of welcome were made by Thomas Kilpatrick of Omaha and Hon. W. G. Whitmore of Valley, Neb. Dr. N. W. Thomas of Chicago, president of the congress, briefly responded to the addresses and introduced Rabbi E. G. Hirsch of Chicago, who delivered the opening sermon. Rabbi Hirsch reviewed the various phases of the evolution of the liberal idea of religion. He traced the toleration of the 18th century through the criticism of the 19th up to the humanitarianism of the 20th. The liberalism of today is not inelastic, but embraces men because they are Jews and because they are gentiles. It is the idea of fatherhood of God and the brotherhood of man.

EZRA WHITCOMB.

There are about twenty men in each township, whom Commissioner Burrell is asking to stand around all winter and spring and wait till he gives them a job of superintending the same gravel road. In the meantime he will expect each and all of them to hustle for his election. We wonder how many of them will be dupes enough to swallow his bait and be hooked in the gills in the spring. It would be well for the taxpayers to make a note of this little scheme.

The ring organ consumed a good amount of its space in the last issue in an attempt to excuse the lawbreaking commissioners for their failure to issue bonds and complete the gravel roads this year according to contract. The silly claim is made that a large amount of interest is saved, when in truth the law specifies that the bonds must run for one, two, three, four, five, six, seven, eight, nine and ten years from the 15th day of November after the date of their issue. It follows then that if they had been issued this fall, they would all have matured at the expiration of ten years from the 15th day of next month, but by holding them back until after that date they can not all mature until eleven years thereafter and in the end it will be necessary to pay nearly one year's interest more than was really necessary. Instead of saving money the result will be an increased outlay, and the poor taxpayer will foot the bill. The people are a little too well acquainted with this gravel road law to be deceived, and they know full well the schemes of Burrell and his "shadow," Gibson and will end the day of such politicians.

Three Doctors in Consultation.

From Benjamin Franklin
"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best; to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Chamberlain, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Chamberlain would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. Blue Jackets.

"Blue Jackets," a naval war play, will be produced on a very elaborate and imposing scale at the Opera House Oct. 24. The scenery and mechanical effects used in this beautiful play are said to be the same of stage realism and the management call attention to the fact that the pictures of the scenes are not in the least exaggerated, but are made from photographs taken by flash light from the actual representations. The cast is said to be exceptionally strong. The piece is a triumph for both company and management and will no doubt meet with due recognition from theatre goers.

Dr. Bull's Cough Syrup has been in use for half a century. Some families have used it for three generations, and it is today the standard cough remedy of this country.

Bedford, Ind., Oct. 19.—An incoming passenger train on the Belt railway collided with a westbound work train near the city limits late yesterday afternoon. Several persons were injured, but none killed.

Curtis Fish and D. Woody of the train crew were the most seriously hurt. Henry Devault was conductor of the passenger and Jesse Gardener conductor of the work train. A misunderstanding of orders is the alleged cause.

Sharper Works the Change Racket on a Kendallville Preacher.

Kendallville, Ind., Oct. 19.—Rev. F. E. Dickenson of this city met a sharper on the train yesterday who wanted to send \$20 in paper money to his wife in Chicago. Mr. Dickenson had the amount and said he would exchange the same for small bills. The \$20 bill was put in an envelope, sealed and put in the sharper's pocket. When he counted his money to the preacher in exchange for the bill he was \$2 short. He asked the preacher to take the envelope and hold it until he secured the balance of the money from a friend. The sharper failed to return and the preacher is out \$20.

\$5,500 SHORT.
